

Natural stone components for trade and project buyers.

Atelier Marble works from Yunfu, Guangdong, China, combining our own processing with partner coordination. We review custom natural stone components from drawings, quantities, material direction, and destination requirements.

Repeated vanity components

Product references; no specific customer project is identified.

Veining and opening placement

WHAT WE CAN REVIEW

Countertops and vanity tops - basin openings, exposed edges, splash details and matching panels.

Cut-to-size architectural parts - panel marks, dimensions, joints, finish and drawing scope.

Repeated project components - room schedules, piece labels and packing groups.

MATERIAL DIRECTION

Marble, granite, quartzite and project-approved natural stone. Current lot, thickness, finish, matching and availability are confirmed for each quotation.

START A QUOTATION

Email and a short project note are enough to start. Drawings can follow. Include rough dimensions, units, quantities, basin or appliance details, material direction and destination when available.

Production scope, tolerances, inspection points, packing, delivery term and schedule are agreed for the project.
